

## 2023 State Legislature Crossover and Adjournment Dates

As many state legislative sessions are now underway, CCIA is providing a list of applicable crossover dates – deadlines that legislation must pass the originating chamber in order to be considered for the remainder of session – in addition to anticipated adjournment dates. Where possible, CCIA has included links to the legislative calendar. Please note that some dates are approximations due to the counting of “legislative days” and may be subject to change depending on the state.
